

## **COMPUTER NETWORK FOR EDUCATION REGULATION**

The following rules and regulations govern the use of the district's computer network system and access to the Internet.

### ***I. Administration***

- a. The Superintendent shall designate an IT network manager to oversee the district's computer network.
- b. The IT network manager shall monitor and examine all network activities, as appropriate, to ensure proper use of the system.
- c. The IT network manager shall be responsible for disseminating and interpreting district policy and regulations governing use of the district's network at the building level with all network users.
- d. The IT network manager shall provide employee training for proper use of the network and will ensure that staff supervising students using the district's network provide similar training to their students, including providing copies of district policy and regulations governing use of the district's network.
- e. The IT network manager shall ensure that all disks and software loaded onto the computer network have been scanned for computer viruses.
- f. All student agreements to abide by district policy and regulations and parental consent forms shall be kept on file in the district office.

### ***II. Internet Access***

*[Note: The School Board should amend these access provisions as appropriate]*

- a. 6th grade students will be provided access: during selected computer and class time; during instructional time in a controlled environment.
- b. 6th grade students may browse the World Wide Web:
- c. 6th grade students are not to participate in chat rooms.

- e. 6th grade students will have computer e-mail address.
- f. 6th grade students are not allowed to belong to mailing lists
- g. A staff member will be required to monitor all of these activities.

### ***III. Acceptable Use and Conduct***

- a. Access to the district's computer network is provided solely for educational purposes and research consistent with the district's mission and goals.
- b. Use of the district's computer network is a privilege, not a right.
- c. Inappropriate use may result in the suspension or revocation of that privilege.
- d. Each individual in whose name an access account is issued is

- responsible at all times for its proper use.
- e. All network users will be issued a login name and password.  
Passwords must  
be changed periodically.
  - f. Only those network users with written permission from the Superintendent or IT network manager may access the district's system from off-site (e.g., from home).
  - g. All network users are expected to abide by the generally accepted rules of network etiquette. This includes being polite and using only appropriate language. Abusive language, vulgarities and swear words are all inappropriate.
  - h. Network users identifying a security problem on the district's network must notify the appropriate teacher, administrator or IT network manager. Under no circumstance should the user demonstrate the problem to anyone other than to the district official or employee being notified.
  - i. Any network user identified as a security risk or having a history of violations of district computer use guidelines may be denied access to the district's network.

#### ***V. Prohibited Activity and Uses***

The following is a list of prohibited activity concerning use of the district's computer network. Violation of any of these prohibitions may result in discipline or other appropriate penalty, including suspension or revocation of a user's access to the network.

- a. Using the network for commercial activity, including advertising.
- b. Infringing on any copyrights or other intellectual property rights, including copying, installing, receiving, transmitting or making available any copyrighted software on the district computer network.

- t. Using the network while access privileges are suspended or revoked.
- u. Using the network in a fashion inconsistent with directions from teachers and other staff and generally accepted network etiquette.

#### ***V. No Privacy Guarantee***

Students using the district's computer network should not expect, nor does the district guarantee privacy for electronic mail (e-mail) or any use of the district's computer network. The district reserves the right to access and view any material stored on district equipment or any material used in conjunction with the district's computer network.

#### ***VI. Sanctions***

All users of the district's computer network and equipment are required to comply with the district's policy and regulations governing the district's computer network. Failure to comply with the policy or regulation may result in disciplinary action as well as suspension and/or revocation of computer access privileges.

In addition, illegal activities are strictly prohibited. Any information pertaining to or implicating illegal activity will be reported to the proper authorities. Transmission of any material in violation of any federal, state and/or local law or regulation is prohibited. This includes, but is not limited to materials protected by copyright, threatening or obscene material or material protected by trade secret. Users must respect all intellectual and property rights and laws.

#### ***VII. District Responsibilities***

The district makes no warranties of any kind, either expressed or implied, for the access being provided. Further, the district assumes no responsibility for the quality, availability, accuracy, nature or reliability of the service and/or information provided. Users of the district's computer network and the Internet use information at their own risk. Each user is responsible for verifying the integrity and authenticity

of the information that is used and provided.

The district will not be responsible for any damages suffered by any user, including, but not limited to, loss of data resulting from delays, non-deliveries, mis-deliveries, or service interruptions caused by its own negligence or the errors or omissions of any user. The district also will not be responsible for unauthorized financial obligations resulting from the use of or access to the district's computer network or the Internet.

Further, even though the district may use technical or manual means to regulate access and information, these methods do not provide a foolproof means of enforcing the provisions of the district policy and regulation.
